NOTICE TO THE MARKET

Fleury SA ("Fleury Group" or "Company"), as part of the updates regarding the unavailability of the Company's systems caused by the attempt of a cyber-attack, informs its shareholders and the market in general that it has achieved a significant progress in the safe return to normal of our technology's platforms, with the support of leading specialized companies in this field. We are gradually normalizing our operations in a controlled manner, with the necessary security tests being performed, prioritizing the automatic integration with hospitals' systems into our environments, which has been occurring gradually and successfully. Our Patient Service Centers continue to serve our patients with systems that have already been restored. The services of our Call Center to schedule exams are already operational for the Fleury brand, and other brands should be restored in the coming days.

The Company will keep the market updated on the evolution of the work to normalize our operations.
